

BEER LIST

BY: FOREST AND MAIN

ELECTRIC RAIN: BABY IPA

Electric Rain - 4.3% Baby IPA. A fun little hoppy bo brewed with wheat and barley, and generously hopped with Citra and Sabro. We're getting fresh fruity notes of homemade pineapple tepache, cold mango nectar, modern marijuana, vanilla cream, and maybe an almond croissant.

HOUSE LAGER

House Lager - 4.5%

We love this beer so dang much. This one features a lovely base of German Pilsner malt and layers and layers of Saphir and Saaz hops. Fermented slow and cold. We're tasting notes of barley crackers, lemon verbena, when herbs get that citrus flavor, sparkling pear cider, apple strudel, and drifting clouds to carry you to a happy place.

UNDER A NEW SUN: PALE ALE

Under a New Sun - 5% Pale Ale. The cooler fermentation temperature lends itself to a delicate fruit character of maybe some gentle Asian pears, allowing the malt and hop notes to shine forward with things like yellow kiwis, lemon sparkling water, medium rare white toast, and white grape juice. A solid crusher.

STONE FLOWER: PUB ALE

Stone Flower - 4% Munich Pub Ale

A superb little Fall pubber. Brewing our Festbier really got us thinking about using more Munich malt as the colder months begin to roll in. We brewed this one with 100% Munich malt and hopped it with Fuggles and dash of Styrian Wolf.

This pub ale presents a gorgeous golden honey hue and wafts with a nose of freshly baked bread and candy. Beautiful notes of dark berry jams atop medium setting toast, dark chewy candies, and those classic British esters.
